

YAZOO

Where does your favourite animal live?

Loggerhead sea turtles

They travel very far to lay their eggs (from Japan to Mexico!). Then they swim back home, without eating very much!

Monkeys

Monkeys like playing with their friends but with people too!

Penguins

Penguins are friends with people! They use their wings to talk to each other (like sign language).

Zebras

Zebras always live with other zebras and take care of each other. No two zebras have the same stripes!

PEARSON
Longman

Greenland

North America

South America

Antarctica

Pandas

There are very few pandas left in the world. There are about 1,000 living in China and 60 living in zoos.

Tigers

Tigers love water and they are very good swimmers. When they are hot, they like sitting in rivers!

Lions

Lions are the only big cats that live together with their families. They live in groups called 'prides'.

Parrots

There are 328 different types of parrot! Most parrots eat seeds and flowers, but there are some that eat meat!

Elephants

Elephants use their trunks to make noises and talk to their friends. They also like to take baths and they sleep standing up!

Kangaroos

The kangaroo baby jumps into its mother's pouch with its head first!
