Teaching Notes

- *Cosmic Kids* is a three-level course for young learners in Senior classes A-C. Through an exciting age-appropriate cartoon story and a range of riddles, tasks, songs and games, *Cosmic Kids* makes English learning fun and stimulating.
- In *Cosmic Kids 1*, the main characters are Alex, Ellie and her parrot Echo, Mrs Pappas and her cat Bianca and Uncle Vinny.
- In *Cosmic Kids*, your students will also discover interesting true facts about English-speaking countries.
- Each Student's Book has ten separate units, which as well as covering grammar, vocabulary and skills, also present the students with a variety of activities and puzzles.
- Other special features include *Wordlist*, *Grammar file* and *Spelling and pronunciation* sections, all with clear presentations/explanations. Grammar and vocabulary is recycled regularly throughout the book. The *Cosmic words* give special emphasis on lexical items which will prove useful for students. The *Writing world* sections cover different writing tasks, and at the back of the Teacher's Book there are photocopiable models as well as extra activities for consolidation.
- Pronunciation is addressed in a comprehensive and relevant way - with particular attention to the difficulties Greek learners have with the English language.
- Songs and projects and a play are all included throughout the book.

Organisation of the syllabus

- **Students' book:** The book is divided into ten topic-based units. The first lesson presents an episode of the ongoing cartoon story featuring cartoon kids Alex and Ellie and their adventures. The second lesson is the *Your world*, which personalizes the unit lexis and structures to make the material more "student-accessible". The third lesson is the *Cosmic world* lesson in which the unit topic is extended more widely in a more global context. The fourth lesson is either a *Skills* lesson (odd units), with emphasis on Reading and Writing, or a *Review* lesson (even units) to consolidate the material from the preceding two units.
- **Workbook:** The Workbook provides extra practice of the grammar and vocabulary items presented in each Students' Book unit. The presentation and format of the activities ensure the young students are kept interested and motivated. There is also a Review section at the end of each unit.
- **Grammar Book:** The Grammar Book follows the Students' Book lesson by lesson and provides further details of the structure as well as extra practice activities. There are clear grammar tables with explanations in Greek, and there is a *Review* section at the end of every unit. Each grammar point is presented through amusing interactions among the main characters of the students' book.
- **Companion:** The Companion is a lesson by lesson guide to the vocabulary in the Students' Book. The Greek translation and an example sentence are given for every word. Extra features make the Companion an invaluable component of the series.
- **Test Book:** There are ten unit tests, testing grammar and vocabulary. There are also 5 Review Tests, (one for every two units) testing all the material taught as well as the skills. There are also mid-year, end-of-year

and final tests, which cover grammar and vocabulary as well as reading and writing. There are A and B versions of all the tests.

- [Teacher's Book](#): The Teacher's Book has clear and practical suggestions for every lesson, as well as ideas for extra activities. Answers are overprinted. Extra notes for the use of the ActiveTeach Interactive Whiteboard software material are also included. At the back of the Teacher's Book there are extra pairwork and speaking activities, Quizzes, Writing models, a placement test and Back to school warm-up worksheets.
- [Class CDs](#): All the episodes of the cartoon story as well as reading texts and songs are included.
- [ActiveBook](#): The Students' ActiveBook includes all the Students' Book spreads, audio files (except the listening exercises) and there are also extra games in order for students to consolidate the materials of every unit in a fun and enjoyable way. The video files of the cartoon story are also included.
- [ActiveTeach](#): The Teacher's ActiveTeach includes all the teaching materials required in the classroom as well as extra Grammar & Vocabulary tests for every lesson.

Suggestions

- Before beginning the course, it is recommended that you read the introductory section of the Teacher's Book. It gives you a clear overview of the course, as well as providing more detail about some of the standard classroom procedures which will prove useful in teaching *Cosmic Kids* to your students.
- It is advisable **before** each lesson to read the corresponding pages in the Teacher's Book and collect all the appropriate material needed for the lesson.
